Colorful Network Diagram of Your DNA Matches, with Information Table Listing Matches by Clusters

\$199.95

Color Network Diagram showing the Clusters formed by your DNA Matches.

You'll also receive a spreadsheet containing the full details on all the matches in the network, listed by clusters. Each of your matches above a certain size threshold is shown as one node (dot) in the network (the cut-off in cM is determined by your number of matches, and how much endogamy there is among them). The diameter of each node is determined by the amount of DNA that you share with that match. The members of each cluster in the diagram will share ancestors in common. You will receive straight and curved-line versions of the diagram as high-resolution PDF files, with the username of each match labeled on their node, as well as a version without the labels, which you can share without needing to worry about the privacy of your matches. We don't need your raw data to create this, only an invitation to view your DNA test results at Ancestry. If you tested at another company, please contact us, as the process and price will have to be adjusted.

Deposit Option: **\$50.00** per item
